Dear Parent/Carer,

We are approaching the first series of Year 10 mock examinations which will be held between Tuesday 20th June and Friday 30th June 2023. Pupils have received their mock examination timetables during form time and this will also be available on the school website.

The purpose of these assessments is to give teachers vital information on areas of strengths, weakness and misconceptions at an individual level. The mock examinations will cover the full breadth of the content that has already been taught. Mock examinations will not include topics that are yet to be taught. In the build-up to the mock examinations, Year 10 will receive a series of revision sessions during form time for Maths and English, depending on where the intervention is required the most. They will begin on Monday 12th June.

We ask for your support in encouraging your child to revise and prepare for these mock examinations at home to give them the best chance of achieving. If you have any questions, please contact postbox@smestowacademy.co.uk

Kind regards

Mr I Chamberlain
